Compact 2-Bay NAS Enclosure Loaded with Features – AccuNAS AN2L

City of Industry, CA – July 11, 2008 – Sans Digital, a leading provider of high performance storage subsystems, today introduced AccuNAS AN2L, a 2-bay compact multifunctional network attached storage unit.

The Sans Digital AccuNAS AN2L is a high performance network attached storage with unlimited possibilities. It not only supports digital file sharing over the network in Windows, Linux and Mac environment, it also allows playback of digital multimedia directly via PS3/PSP, XBOX and other digital media player using UPnP and DLNA. Images and photographs could be easily shared via the web using the Photo Station feature, with automatically creates thumbnails and web pages for these files. The AN2L supports iTunes Server by allowing automatic MP3 detection and display in PC or MAC's iTunes software. Its Web Hard Drive feature allows off site file access, where data could be retrieved from various locations. Its Network Recycle Bin prevents accidental file deletion by saving deleted file in a temporary location.

Besides data sharing, the AN2L also includes other sever-like features such as Web-server with MySQL, FTP server, BitTorrent/FTP/HTTP download server, and complete backup server supporting PC-to-NAS, NAS-to-NAS, and NAS-to-USB backup. AN2L is designed with built-in RAID 0, RAID 1, JBOD, and Spanning, with account managements allowing safe data-keeping. "The AN2L is not only easy to setup, but also supports an abundant number of user friendly features to enhance consumer level NAS experience," stated Grandy Chen, Sans Digital's President. "The AN2L is a powerful and secure storage unit, as well as a multifunctional network server." For more information on the AN2L, please visit:
