

## Sans Digital AccuRAID AR316ITR Achieves VMware Ready™ Status

City of Industry, California, June 22, 2011 - Sans Digital, a leading provider of high performance storage subsystems, today announced that its AccuRAID AR316ITR has achieved VMware Ready™ status. This designation indicates that the AccuRAID AR316ITR has passed a detailed evaluation and testing process managed by VMware and is now listed on the VMware Partner Product Catalog or Hardware Compatibility List.

Passing the extensive VMware-specified testing helps ensure that AccuRAID AR316ITR makes best use of VMware technology and is ready for deployment in customer environments.

“We are pleased that Sans Digital AccuRAID AR316ITR qualifies for the VMware Ready™ logo, signifying to customers that it has passed specific VMware testing and interoperability criteria and is ready to run in production environments,” said Sheryl Sage, Director, Alliance Programs, VMware.

“By using AccuRAID AR316ITR with VMware vSphere®, enterprises can benefit from centralized and fully protected data storage with dual-redundancy such dual active-active RAID controllers, hot-swappable power supplies and cooling fans to ensure a non-stop operation in a 24x7 data center environment.”

The VMware Ready program is a VMware co-branding program for qualified partner products and is a benefit of the VMware Technology Alliance Partner (TAP) program. With more than 1,800 members worldwide, the VMware TAP program works with best-of-breed technology partners to provide them a comprehensive set of VMware technical and marketing services, support, tools and expertise to deliver enhanced value to joint customers.

Sans Digital AccuRAID AR316ITR can be found within the online VMware Partner Product Catalog at <http://www.vmware.com/partnercatalog/catalog/>. Hardware products can be found within the online VMware Hardware Compatibility List at <http://www.vmware.com/resources/compatibility/search>.
