Sans Digital Expands National Distribution Network with ASI Partnership

Santa Fe Springs, CA – October 02, 2006 – Sans Digital, a leading provider of high performance storage subsystems, announced that it has signed a distribution agreement with ASI Corp., a leading distributor of computer components and peripheral products in North America. Starting immediately, ASI will distribute Sans Digital's complete line of computer storage products including MobileSilver series, AccuRAID series, AccuNAS series, Mobile NAS series, EliteRAID series and EliteStor Series, throughout the United States, Canada and Latin America.

Sans Digital offers a wide range of storage selections featuring the latest eSATA, 1394a, 1394b, USB 2.0 and U320 SCSI host interfaces in single to multiple drive storage form factors including mobile cube, tower, and rack mount. Utilizing Redundancy Array of Independent Disk (RAID) technology, Sans Digital offers storage subsystems that use multiple hard drives to provide data redundancy and increase performance. Sans Digital's advanced subsystems include the industry's most advanced data redundancy options to prevent dual hard drive failure, known as RAID 6. The latest innovation from Sans Digital also includes feature-rich Network Attached Storage (NAS) and iSCSI subsystems in rack mount and tower form factors.

Serving over 16,000 value-added resellers (VARs), ASI will provide widespread distribution of Sans Digital's complete high performance storage product line and simultaneously increase product availability and presence. With 20 offices throughout North America and Latin America, ASI will also provide extensive sales support, service, technical support and warehousing for all Sans Digital storage products.

"Sans Digital has always been a leader in today's storage market and a leader in manufacturing unique high capacity, high performance and high availability RAID storage products," stated Grandy Chen, Sans Digital's vice president of sales and marketing. "With the ASI partnership, system integrators and value added resellers can provide an extensive selection of RAID data storage solutions for increasing storage products requests."

About ASI Corp

ASI Corp. is a leading wholesale component and peripheral products distributor founded in 1987 to service the integration needs of value added resellers in North America and Asia. The company's 20 North American offices focus on the immediate delivery of over 80 vendor's lines to approximately 26,000 VARs. The company is a leading distributor for the following vendors: AMD, ASUS, ATI, Creative Labs, ECS, Intel, LG Electronics, Microsoft, Seagate, Sony, Samsung, ViewSonic and Western Digital.
