**Complete 6G SAS/SATA RAID Storage Rackmount Bundled Solutions with over 1000MB/s\* performance - ES208X6+BHA, ES316X6+BHA and ES424X6+BHA**

City of Industry, CA – May 4<sup>th</sup>, 2011 – Sans Digital, a leading provider of high performance storage subsystems is proud to announce a full line of 6G SAS/ SATA RAID storage rackmounts with SAS Expansion capability that utilizes the powerful RAID processor from the included (HA-ARC-ARC1880X) hardware RAID controller.

Based on the award winning EliteSTOR 6G SAS expander JBOD, the EliteSTOR ES208X6+BHA (2U 8-bay), ES316X6+BHA (3U 16-bay) and ES424X6+BHA (4U 24-bay) provide what the most current technology have to offer, such as the RAID60 and up to 24Gb/s of bandwidth via a Mini-SAS cable plus 6Gbps SAS and SATA HDD support. The bundled RAID controller's built-in hardware RAID engine is fast and helps to offload complex RAID algorithm calculations from the host computer/server processor.

Enterprise features such as remote management, critical event e-mail notification, and redundant power supplies all come standard with the ES316X6+BHA and ES424X6+BHA (optional for ES208X6+BHA). Operating systems ranging from PC, Mac, Linux all the way to virtualization OS such as VMware ESX 4.0/4.1, Citrix XGen or Microsoft Hyper-V server are also supported. In addition to outstanding performance, the ES208X6+BHA, ES316X6+BHA and ES424X6+BHA also allow users to daisy-chain multiple units together, supporting up to a maximum of 120 hard drives using a single RAID HBA. With support of the latest 3TB hard drives, this solution can support up to a total of 360TB raw capacity. The ES208X6+BHA, ES316X6+BHA, and ES424X6+BHA are fast, reliable, affordable yet simple to use, providing a maximum return on investment for your stringent IT dollar.

"The comprehensive full line of EliteStor 6G SAS Expander rackmount models combine high performance, quality, and scalability at a reasonable price point for our customers." said Stanley Chan, Director of Business Development of Sans Digital. "This new 6G rackmount storage series provides a complete solution for IT and creative professionals alike who demand the highest performance for their applications with massive storage expansion capability."
