### **Sans Digital, your ONE-STOP Storage Solution Provider Announces a New Line of High Performance, Mobile RAID Storage Systems**

**Santa Fe Springs, CA** – April 13, 2006 – Sans Digital, a leading provider of high performance storage subsystem, announces the release of the new Mobile Silver Series, the latest addition of Sans Digital extensive collection of storage subsystems.

The new Mobile Silver Series features a wide range of storage selections featuring the latest USB 2.0, eSATA, 1394a, 1394b, U320 SCSI interfaces and single to multiple drive storage depending on your needs. These high quality products are designed to deliver unparalleled performance to meet today's most data intensive demands. Enclosed in stylish aluminum housing and utilizing cutting edge hard drive technology, the Mobile Silver Series is built with performance, convenience and value in mind which means that it will get the job done every time.

"The new Mobile Silver Series offer users the best selection available from compact, portable solutions, such as the MS1U and MS1UT, to high performance, high capacity units, such as the MS2C1, MS2UT and MR5S1," said Grandy Chen, Vice president of Sans Digital. "Users will enjoy the performance and versatility of the Mobile Silver Series, as well as the stylish aluminum design."

### **About the Mobile Silver Series**

The Mobile Silver Series includes five models, all of which support Windows and MAC Operating Systems:

**MS1U** weighs only 3.1lbs. Featuring a one touch Memory card backup and supporting up to 120GB of 2.5" Hard drive, it is the most convenient portable way to carry data on the go. The MS1U features:

- Built-in LCD for status indicator
- One button memory card backup system
- Compact size and weight: 3.1"W x 4.9"D x 1"H with 0.32 lb.
- Support 2.5" UltraATA100 Notebook size hard drive
- Supports most available memory cards

**MS1UT** is the world's first removable tray designed on a single bay external enclosure. Supporting eSATA and USB 2.0, the MS1UT features:

- Ultra-Quiet operation
- One removable hard drive Tray
- Aluminum enclosure with an aluminum vertical stand
- Support SATAI and SATAII 3.5" Hard Drive
- eSATA and USB 2.0 Dual interface

- more -

**MS2C1** features 3 interfaces, 2 removable trays all in 1 enclosure. It supports Firewire 800, Firewire 400 and USB 2.0. Also features built-in hardware RAID 0 and JBOD engines which makes it a perfect choice for a mixed operation system environment. Other features include:

- Supports Firewire 800, Firewire 400 and USB 2.0
- Hardware based RAID 0 Engines, supports JBOD mode
- Up to 1TB of storage with 2 removable hard drive Trays
- Support SATAI and SATAII 3.5" Hard Drive
- Temperature and fan failure detector with purple LED warning light

**MS2UT** utilizes cutting edge eSATA connections to provide ultimate performance. With an LCD display and Hardware based RAID 0 and RAID 1 engines, the MS2UT can provide flexibility between high performance and ultimate protection of data. The MS2UT features:

- Supports eSATA and USB 2.0
- Built-in LCD display and Hardware Based RAID 0 and RAID 1 Engines
- Up to 1TB of storage with 2 Hot-Swappable hard drive trays
- Support SATAI and SATAII 3.5" Hard Drive
- Bundled with Windows GUI software for storage system monitoring.

**MR5S1** is the ultimate performance choice. Utilizing cutting-edge SCSI Ultra 320 interfaces with built-in RAID engine hardware, it can support RAID 0, 1, 0+1, 3, 5 and JBOD.

- Supports U320 SCSI interface
- Blazing fast performance, above 200 MB/s
- Up to 2.5 TB of storage with 5 hot-swappable hard drive trays
- Support SATAI and SATAII 3.5" Hard Drive
- Temperature and fan failure LED indicators.
