Sans Digital, your ONE-STOP Storage Solution Provider Announces the Would Largest SATA to Firewire, USB and eSATA RAID Subsystem Tower

Santa Fe Springs, CA – June 21, 2006 – Sans Digital, a leading provider of high performance storage subsystem, announces the release of MobileRAID SATA to Firewire 800 (1394b), USB 2.0 and eSATA 5 bays RAID 6 subsystem tower with up to 3.75TB raw storage space, the latest addition of Sans Digital extensive collection of MobileSilver Series.

“The new MobileRAID MR5CT1 offer users the highest capacity of storage using the most common connections in the markets,” said Grandy Chen, Vice president of Sans Digital. “Users will enjoy the ease of connecting USB, Firewire and eSATA while protecting their important data by different RAID level.”

MR5CT1 features

Utilizing high-performance cutting-edge Intel 400MHz I/O process, MR5CT1 provide blazingly fast parity calculation and I/O operations, completely cableless backplane-based design, storage capacities reaching 3.75 TB and support up to RAID Level 6 in one small tower enclosure.

The new MR5CT1 features:

- Build-in High performance RAID controller, Completely OS independent
- USB 2.0, Firewire 800 (1394b) and eSATA Triple Interface.
- Support latest SATA II, NCQ, 3 Gb/s 750 GB Hard Drive, up to 3.75TB total storage
- Online Array Roaming, RAID level/stripe size migration, RAID capacity expansion
- Instant availability and background initialization
- Easily configure by embedded RAID manager via 10/100 Ethernet, LCD or RS232
- Temperature and fan failure LED indicators.

Pricing and Availability

MobileRAID MR5CT1 units is available now with price \$1745 (US MSRP). Visit Sans Digital at www.sansdigital.com to purchase a unit or to find a reseller near you.
