**Sans Digital Introduces New USB & eSATA 2-Bay Storage Subsystems:  
MobileSTOR Plus Series**

**City of Industry, CA** – April 11, 2008 – Sans Digital, a leading provider of high performance storage subsystems, today introduced its exclusive and newly designed MobileSTOR Plus direct attached compact hard drive storage series that includes the MS2U+ and MS2T+ 2-bay subsystems. The Mobile Plus series is intended to bring flexible and affordable storage solutions to home and small office environments.

**MobileSTOR MS2U+ and MS2T+**

The MobileSTOR Series MS2U+ / MS2T+ is an economical yet feature-rich 2-bay external JBOD solution designed for fundamental storage needs with JBOD. The MS2U+ / MS2T+ allows the access to two hard drives instantly via USB 2.0 (MS2U+) or eSATA (MS2T+) interfaces. Like the MS2UT+ / MS2UTN+, this series is also equipped with two swappable 3.5" lockable hard drive trays that are also compatible with other Mobile series products, as well as temperature controlled cooling fan for quieter operations. It supports the latest 1TB hard drive with up to 2TB in storage capacity for maximum usage.

The MS2U+ and MS2T+, along with the MS2UT+ / MS2UTN+, feature stylish and lightweight aluminum housing, as well as cable-less back panel design. To reinforce individual units are available in both silver and black (B) to suit personal references and styles. Both models incorporated operating system independent design with support for Windows, Linux, and Mac OS X. "One of Sans Digital's primary goal is to lead the storage market with state-of-the-art technology," stated Grandy Chen, Sans Digital's President. "These newly improved additions to the MobileSTOR series is guaranteed to provide unparalleled performance and value to meet the most intensive data storage demands." For more details, please visit:
