Sans Digital Launches Storage4mac.com

Santa Fe Springs, CA – October 19, 2007 – Sans Digital, a leading provider of high performance storage subsystems, is delighted to announce the launch of their third website Storage4mac.com. In addition to the original www.sansdigital.com and www.iscsinas.com, the new website www.storage4mac.com focuses on providing storage solutions for Macintosh users.

Storage4mac.com carries Sans Digital brand products that are fully compatible with Macintosh platforms. It provides Mac users with a wide range of storage selections, from single unit towers to rackmounts, in the most popular connection interfaces. Sans Digital's single unit towers, such as the MobileSTOR series, are designed with mobility in mind to be used in a personal and home environment. Additionally, its rackmounts, such as the EliteSTOR series, are widely popular for their convenience in business settings. The storage units are designed with up to RAID 6 functions, as well as hot-swappable and interchangeable hard drive trays, for increased data protection. The launch of Storage4mac.com not only provides storage information that is Mac oriented, it also supplies Mac users with a line of storage products that are visually appealing. Sans Digital's products are designed with contemporary and stylish appearances that are suitable in a Mac environment. "Our goal is to provide our Mac customers with the best storage products in the world," stated Grandy Chen, Executive Vice President of Sans Digital. "With free and comprehensive technical support on Mac compatibility, Sans Digital strives to satisfy its Mac users by meeting each and every storage demand."

About Storage4mac.com

Powered by Sans Digital, Storage4mac.com focuses on delivering data storage solutions for the needs of Macintosh users. Using a storage technology base that has been proven in home and enterprise environments, Storage4mac.com provides the best storage solutions in DAS, NAS, and SAN for Mac platforms.
